muRata Inductor Data Sheet

Inductance	53nH ±5%
Inductance test frequency	100MHz
Rated current (Itemp) (Based on Temperature rise)	1300mA
Max. of DC resistance	0.060Ω
Self resonance frequency (min.)	2000MHz
Operating temperature range (Self-temperature rise is not included)	-40~125°C
Class of magnetic shield	No Shield
Series	LQW15CN_1Z

## 🔔 Attention

1. This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued

without advance notice. Please check with our sales representatives or product engineers before ordering.

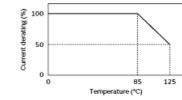

2. This datasheet has only typical specifications because there is no space for detailed specifications.

Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering.

In operating temperatures exceeding +85°C, derating of current is necessary for this series. Please apply the derating curve shown in the chart according to the operating temperature. Derating of Rated Current
